### EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance: The Office Action of 9/20/05 stated that claim 12 was allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 12 is allowable because the prior art fails to teach or suggest adding the following layers to the structure of claim 1: an adhesive or primer adjacent to the copolyetherester layer and a second substrate layer comprising at least 50 weight percent of a polyolefin. Beavers only suggests creating three or five layered structures where the layers are configured accordingly: copolyetherester layer, tie layer of a low weight polyethylene resin and polyolefin layer or copolyetherester layer, tie layer of a low weight polyethylene resin, polyolefin layer, tie layer of a low weight polyethylene resin and copolyetherester layer. In order to create the laminate as claimed in claim 12, one would have to rearrange the layers of Beavers and there is no motivation for the rearrangement. Since claim 1 has been amended to include all the limitations of claim 12, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
